MODULAR SIGN SYSTEMS & WAY FINDING SOLUTIONS

# SUSPENSION KITS

[www.cosign.be/suspension](http://www.cosign.be/suspension)

## EASE OF USE

Cosign developed a range of suspension systems which guarantee an easy, cost effective and safe suspension of signage, lighting systems, cable trays and other applications.

All systems have a built-in locking mechanism that grips cables automatically. To release, just press the clutch button, and the cable is free to move back and forth to achieve the desired length.

Our suspension range offers a solution for all types of ceilings: conventional ceilings, suspended ceilings, ceilings with metal tiles or high open ceilings with visible structural supports.

# SUSPENSION SYSTEMS

## SUSPENSION CLIPS

code	description	cable thickness	max weight
